

Meles Zenawi Represents African Dictators at the G20 Summit

Dictator Meles Zenawi is in Toronto, rested and settled like any other descent human being at a five star hotel. He probably is feasting on the ambasha he brought with him. He doesn't have to remind himself about the jungle life he had or about those mass killings that took place on his orders.

It feels that the monster that sucked the blood of Ethiopians is following us, for we are Ethiopians too.

The monster is here; the smell of blood from his hands is wafting through the air..

We are ashamed because, Ethiopia is represented by Meles Zenawi, a streetwise ethicist whose leadership ability transcends no more that the length and height of his ethnic group.

We are ashamed because instead of her brilliant and patriotic sons and daughter, Ethiopia is represented by none other than Zenawi who worked hard to dismember the country;

We are angry because a murderer is treated as head of state and accorded with full diplomatic immunity.

We are angry because Zenawi just finished stealing and robbing the people's vote now he acting like an elected leader;

We are angry because the conservative government of Canada, issued entry visa to Mr. Zenawi, to attend the Summit in spite of our protest.

We are angry because the Canadian government has utterly failed to enforce its own law intended to punish war criminals and individuals who committed crimes against humanity – Zenawi should have been sent to jail instead of a luxury hotel.

We are angry because our intelligence is being insulted by Meles Zenawi and the Canadian government ;

Carefully covering his blood soaked-hands, Zenawi wonders, how gullible the Canadian government is and how smart he is to fool them almost all the time.

Zenawi hates us because we are exposing all aspects of his crimes to the world.

Here is what we want to SAY LOUD AND CLEAR !

ZENAWI DOESN'T REPRESENT ETHIOPIA BECAUSE THE ETHIOPIAN PEOPLE NEVER, NEVER, NEVER, ELECTED HIM TO LEAD THE NATION.

Since he came to power in 1992, Zenawi slaughtered and persecuted Ethiopians who spoke about unity and Ethiopia's territorial integrity. Using his ethnic cadres, he ignited ethnic cleansing

in various parts of the country in which thousands were killed and tens of thousands more tortured, maimed, raped and displaced. .

Zenawi held bogus national elections, five times. In the May 2005 election, Meles's party was miserably defeated by the then Kinijit but Zenawi refused to acknowledge the defeat. He unleashed his security forces killing 193 unarmed peaceful demonstrators. The election was stolen and robbed and those who won the election were thrown into jail. Several of the elected parliamentarians were persecuted abducted and some went into exile.

In the recent May 23, 2010 national election, Zenawi stole virtually all the votes and claimed a win of 99.66 %. Ethiopian's call it "99.66% Dictatorship in Ethiopia".

In today's Ethiopia, the economic situation is dire. Meles uses fictitious figures to show a double digit economic growth. We will agree with the figures if Meles were talking about his party's business growth.

Businessmen who are not associated with the ruling party are elbowed out of business. Other times they are confiscated their business, out rightly.

Meles's party, the TPLF, has amassed the wealth of the nation. Major import and export companies are run Meles and his comrades. Transportation companies, communication companies, large banks, insurance companies, construction companies and other lucrative businesses are fully controlled by Meles , his wife and cronies.

For the ordinary Ethiopians, the cost of living has become unbearable. Yet Meles tells us the economy is growing at double digit rate. What a fiction! What a lie!!

Unemployment is soaring. Not even Meles and his friends could find a number to explain. In the cities many families are going with out breakfast or lunch or dinner.

Young Ethiopian girls are being shipped to the Middle Eastern Arab countries to work in inhumane conditions. Many have been brutally murdered by their employers. When they go to embassies to complain about the treatment by their employers, the Ethiopian embassies regard them with merciless zero indifference. In some cases the embassies chase them away from their compounds.

The Ethiopian education system is the worst in Africa except , of course , in Tigray, Mele's home province. In Tigray the curriculum is different from the rest of the country, ensuring that students get the best teachers, and books.

In today's Ethiopia, admission to universities and other higher institutions of learning depends on the student's ethnicity and allegiance to Meles's party. No matter how a student is brilliant she or he needs to be either from Tigray or loyal to Meles's party to get admission to university. The same goes for scholarship abroad.

Zenawi is leasing fertile Ethiopian land to foreign millionaires at a break neck speed. So far 6000 foreigners have leased land from the government on ridiculous terms for up to 99 years. No product from the land would be sold in Ethiopia, nor would Ethiopia get the foreign exchange from

the sale of the product not much would Ethiopia gain in terms of employment because the investors are allowed to bring even daily labourers from their own countries.

Meles stands to serve the interests of foreign powers at the expense the Ethiopian people. He served the United States interest by going to war with Somalia. The war in Somalia is not the business of Ethiopia. But Meles wanted to please the United States to get its support to stay on power and sacrificed precious young Ethiopian lives.

Canada is perpetuating the plight of the Ethiopian people by financing Zenawi's repressive regime.

The Canadian International Development Agency should evaluate its program in Ethiopia.

With the exception of direct humanitarian assistance , Canada should stop providing financial aid to Zenawi's regime.

Zenawi could be on power for decades but he would never mature, he would never abandon his ethnocentric philosophy of Tigran supremacy. In Meles's philosophy to be a Tigran is to be "gold". Any other ethnic group is "dust".

Ethiopians are under the yoke of ethno fascist regime. We need to throw the yoke away and Zenawi needs to be removed and shipped away to Dedebit or some other jungle, the only place Zenawi could fit in.

The Canadian media; Shame on you!

Shame on you for not reporting the crimes of Meles Zenawi,

Shame on you for your deliberate ignorance about the plight of the Ethiopian people in the hands of a tyrant;

Shame on you for not reporting when a murderer sneaked into our city,

You give long coverage , page after page, when a speeding car misses a cat crossing the street; you are silent when mothers are shot on their head in front of horrified children. Do not tell us it happened far away in Africa, you have the technology to bring news from any part of the world. And Africa part of the world. Africa and particularly Ethiopia is the cradle of human kind.

You report and dramatize a common sex scandal for months until we get sick and tired.

You are silent when more than forty million Ethiopians are robbed of their votes in broad day light . That is not news worthy for you!

You are silent when their hope for justice and the rule of law is melting into thin air. That is not news worthy for you!

You are silent when fellow Ethiopian journalists are intimidated, beaten, jailed and killed. That is not news worthy for you.

You are eager to report how a burger king sandwich almost choked a friend but you are silent when millions are suffering in pervasive injustice. That is not news worthy for you!

Created with

You rattle with hightened curiosity about office romance of individuals, but your curiosity drops to zero when you are provided with information on how many political prisoners are languishing in Zenawi's jails.

Your knowledge of journalism and the advances in media technology haven't t served humanity. At least not in Africa, particularly Ethiopia.

Canada needs to help the Ethiopian people. The friendship between the Ethiopian people and the Canadian people lives longer that the friendship between Meles and the current Canadian government.

Ethiopians shall defeat Meles Zenawi and his cronies,

Like his predecessor Mengistu Haile Mariam, Zenawi will ran away in search of Sanctuary,

Ethipians will bring Zenawi to justice. Zenawi shall be put in the dust bin of history.

Long Live Ethiopia !!!
